Town of Addison

Located at 3939 Spring Valley Road, the environmentally sustainable campus has 39 classrooms that can accommodate up to 810 Pre-K through 5th grade students. The new elementary school is the Town of Addison's first DISD public school and enjoys strong community support.

Founded in 1995, the Addison Arbor Foundation's mission is to promote and enhance a sustainable, natural environment in Addison. Since its inception, the Addison Arbor Foundation has initiated, promoted and facilitated physical improvements and greater community involvement as well as created new programs for Addison residents offering educational opportunities about trees and horticulture.

"Addison has embraced this new school in a big way, with residents and non-residents alike helping out to create an exceptional learning environment. The 'Leaf your Mark' campaign gives everyone the opportunity to make a difference in young lives."

- Councilman Bruce Arfsten

Planting for Success

Addison's first elementary school, George Herbert Walker Bush Elementary, opened its doors fall of 2011. The Town of Addison is collaborating with DISD to help design and install the school's landscaping which will be maintained like a park. Addison residents will be able to make use of the green space, which is linked to Addison's existing trail network. The Addison Arbor Foundation has joined with the Town to raise \$28,000 in donations to pay for the trees and YOU can help!
